IN A BURST OF ACTIVITY

THE STOCK MARKET CLOSES BROAD AND BUSY WEEK.

> Poor Bank Statement Has No Effect or a Buoyant Trade-Better Money Market Conditions.

NEW YORK, Nov. 9.-To-day's stock market was broad and comprehensive in | Sugar its scope and very active all day. It was also irregular throughout, but increasingly so toward the last hour, when the unexpected decrease in the cash reserves of the panks reported in the weekly statement was offset by a buoyant upward spurt in the New York public utilities, led by Metropolitan Street-railway, which rose some 6% points over last night. Brooklyn Transit gained 3%, Consolidated Gas 24 and Manhattan 2. At the same time there were enormous transactions in Third-avenue 4 per cent. bonds at an extreme decline of about 3 points. The only news bearing on the movement was the reported dissolution of the syndicate which financed the purchase of the Third-avenue Streetrailway. People's Gas came into the movement apparently in sympathy, and there was a sudden jump of 24 in Pressed Steel Car at the last. During the first hour of the market there were widely distributed dealings based on general considerations, such as the uniformly large increase in railroad earnings for the fourth week in October and the belief in early improvement in the money condition. At the same | Indianapolis Street-railway 45 ime there was heavy realizing going on in vance lately, the realizing, however, being well absorbed. The disposition to take rofits increased after the appearance of e bank statement and the market closed

n some confusion and very active, It is evident that bank loans have not | National Biscuit don, as loans have decreased \$4,927,900. The Diamond Match . furnished material for the week's specula- National Biscuit pref..... gain in cash by the banks of over \$2,000,000, while the bank statement shows a loss of \$3,703,700. Following the holiday interval on election day this week there was an out-burst of activity and buoyancy on the Stock Exchange which rushed the volume ings and Balances. of dealings over the million-shares-a-day level. The election results themselves had little apparent connection with the movement except in the case of some of the New | Clearings, \$1,582,513; balances, \$235,671.97. York municipal stocks supposed to be directly interested in the personnel of the New York city government. Stock Exchange brokers were very large winners contest, which may have been an incentive 4.85 and \$4.87\2014.88; commercial bills, lying motive of the outburst was the confident statements current that a definite agreement had been reached for the harmonization of the Northwestern railroad juarrel. The stocks concerned in that dispute have made up the largest part of the peculation, and the whole of the trans- \$1,848,279. entinental group has shown sympathy. Nothing has been learned from authoritaive sources to show how far railroads not | 966,661 mmediate parties to the deal were to be affected by the settlement, but speculative Wall street has clung to the conviction that not only was the control of the Burlington system to be harmoniously adjusted between the Union Pacific and the Northern | Clearings, \$4,869,176; balances, \$456,789. Pacific-Great Northern interests, but that between all the transcontinental lines. The | Clearings, \$2,274,900.

actual news on the subject has been conined to skillful surmise based on the price movement of individual stocks and on the general fact that the leading capitalists involved are agreed in their admissions that the negotiations are proceeding satisfactorily and that the promise of an agreement to insure the interests of all parties. The stimulating effect of this development has given room for the play of a number of other favoring forces on the stock market. Reports of a phenomenal railroad traffic have come from all sources, and an urgency of demand for freight room which has led to freight-car famine in many lines. In some industries, notably the iron and steel, the production on orders has been limited only by the ability of railroads to deliver materials. Pending imports of iron are reported to be in contemplation to supply the deficiencies of the do-mestic supply. The coal traffic is said to be of unprecedented amount, and at a record evel of prices. Reports of general domestic

trade conditions also are favorable. The

gross earnings of railroads for the fourth

week of October show some very large per-

centage increases over those for the cor-

responding week of last year. A considerable short interest in some of the stocks the port of New York for the week are recently under pressure has been a technical aid to the rising tendency. These considerations have tended to ob-Absolute safety against fire and burglar. Po-liceman day and night on guard. Designed for safe keeping of Money, Bonds, Wills, Deeds, Abscure somewhat the money question, and the continued exports of gold without redue to the fact that part of the foreign demand was satisfied and that currency would soon begin to return to New York JOHN S. TARKINGTON - - - Manager. from the interior. With the Paris Bourse settlement disposed of, the November installment of subscriptions on British consols met and a notable recuperation effected this week in the condition of the Done by Peons Under the Supervision Bank of France, the hope of a relaxation in the foreign demand for gold is consid-

ered. The large receipts of Australian and Klondike gold have run parallel with the withdrawals for export, and the offerings of government bonds, though small, are sufficient to offset the current government surplus withdrawn from the market. tonholed around the edge of this are six or Railroad bonds have been in active deseven points of hand-made lace. Unexpected and Unexplained Heavy

High- Low- Closing A Kansas City dealer in Indian curios, Atchison pref 43,500 102% 101% 102% to-day shows: Circulation, decrease 54,500 | income to do away with the necessity of The banks now hold \$8,689,925 in excess of oped there. Factories, too, everywhere, are

The Financier says: "The striking feafected the bank statement of this week are needed by my customers. A lady came is that the net gain to the banks resulting advertised for five consecutive days, statfrom subtreasury operations, including pay- ing only that a servant was wanted at such ments to these institutions for bonds and an address and adding highest wages for new gold, less excess receipts by the given, yet she had not had a single antreasury on the fiscal operations, nearly | swer. In despair, she altered the advertiseoffset the loss to the banks of only \$574,000. | ment, giving definite hours at which the The banks gained \$5,561,500 through bond | cook might come 'from 8 to 7,' but that was payments and new gold disbursed on as- equally unsuccessful. Servants are simply say office checks, less transfers of money to | not to be had." the West and South, and the banks lost to the treasury \$2,745,800 through the excess of receipts by that office for customs, internal revenue, etc., over payments on Chicago Tribune. ordinary business, leaving as the net gain to the banks from the subtreasury \$2,815,-700. The banks lost through exports of that man in the house on the other side of gold \$2,758,700 and through the direct interior movement, less transfers, \$631,000. making together \$3,389,700. Hence the total estimated loss to the banks was \$574,000. It is noteworthy that exports of gold were only \$12,900 more than the week's surplus revenues of the subtreasury. The bank statement showed a loss of \$3,703,700 in cash. The discrepancy between this amount and that estimated doubtless arises from the fact that considerable sums which were paid for bonds were distributed to institutions other than banks; also that the bank average system is to a great extent responsible for the difference. Loans decreased \$4,927,000, indicating liquidation of exchange loan contracts, and deposits were diminished by \$7,643,300, or about \$1,000,000 less than the loss of loans and of cash. The surplus reserve was reduced \$1,792,875, now standing at \$8,689,925."

PRIVATE WIRE ADVICES.

Broader and Better Market, with a Generally Upward Tendency.

[Meyer & Kiser's Telegram.] NEW YORK, Nov. 9.-The indications that the market was broadening and the outside public was becoming interested somewhat inclined to lag behind the rest | peared. 86% of the market, bearing out the impression that has prevailed for some time that the plied: "Up stairs praying for guidance." 16 buyers of these stocks a few weeks ago Am. Linseed Oil pref. ... 45 were taking advantage of the strength of "Down stairs taking up the carpet," the Am. Smelt & Refining 3,250 43% 42% the market in order to liquidate. Norfolk child answered as innecently as could be.

& Western and the bituminous coal stocks were dealt in to a considerable extent and 67% | the anthracite coal stocks also were strong. During the second hour of the session the local traction stocks came to the front, Metropolitan, B. R. T. and Manhattan all enjoying sharp advances. There was no explanation for this movement except perhaps that B. R. T. and Metropolitan bave been recently sold by a clique of bear traders, who were frightened out of their position by the strength of the rest of the market. Third-avenue 4 per cent. bonds broke 3 points at the opening on the dissolution of the syndicate which is supposed to hold \$5,000,000 of these bonds. The decline attracted excellent buying of an investment nature, the bonds being decidedly attractive around 101. Although the showng made by the bank statement was more unfavorable than expected and was full of surprises, the market gained in strength during the last half hour and finally closed

Strong in Face of Realizing.

not far from the best figures of the day.

[Granger Farwell & Co.'s Telegram.] NEW YORK, Nov. 9.-The market has shown good strength to-day, in the face of a good deal of realizing. The selling of Union Pacific on bulges was again good, but while the selling seems of the best character all of it probably will be taken and the price put higher. Commission business was good for Saturday and the bank statement about as expected. Gold exports are looked for next week, but the powers behind the market do not seem to think that will make any difference. The great bull argument here is that through the Northwestern agreement rail rates will be put on a good basis and kept there, and that other deals will follow which will cause much higher prices later. The public is beginning to come in, and while stocks seem to be high enough it looks as though they will probably go still higher.

SERVANT GIRLS IN NEW YORK.

They Are Not in the Market-Some Reasons Why.

New York Evening Post. Persistent advertising has brought no rebe a superannuated old woman or an igsimilar result. One German woman predaughter she wished the place. "Not at all," was the reply. "I want it

it," said her questioner. "Oh, no, madam; I am only seventy-two." rather promising-looking young person, whose want of zeal, however, was suspicious, and she finally admitted that this was her first attempt at service; that her a place, and that it was doubtful if they

they discovered her whereabouts. A visit to the German Housewives' Association, that organization of German housekeepers which has been endeavoring to raise the standard of domestic service in this country by means of the prize-giving and reference-recording systems that exist in Germany, proved equally disappointing It was found that \$5 must be paid to join the society, together with \$2.50 of the first year's dues of \$5, before the employer would be eligible to receive a maid. With that \$7.50 paid over, however, the person in charge could only promise to try for a girl; she would by no means bind herself

to produce one. "They are very hard to get," she said, a statement the force of which her listener only too well knew. Another woman got so far last week as to get a cook into her house, as an indifferent applicant for the place at \$35 a

"I have always had \$40," she said airily, "but I might begin for \$35." When she had satisfied herself that the kitchen was perfectly appointed, that a kitchen maid was kept, that the hours were to her liking, etc., as a last condition she asked to see her room. This was shown to her, and it met her tolerating approval. "And where is my bath?" she asked. The door of the servants' bathroom was opened.

"Oh, I never work anywhere where I cannot have a bathroom to myself," said this autocrat of the pots and pans, and negotiations were at once discontinued. Now this may be very encouraging to the sanitary enthusiasts, who complain that housekeepers do not recognize the importance of providing bathing facilities for their servants, but even they will admit that a private bathroom to each of eight or ten servants is asking rather more than is

A third would-be employer-all of these instances have occurred within the past fortnight-also lives in an apartment. It is one of the finest in the city, equipped ern comfort and luxury. She, too, has not been able to secure her complement of servmade the second interrogation, "Is it a cor- | high wines, \$1.31. ner one? I don't like any flats but a corner flat." As a matter of fact, it is a corner apartment, but even this desirable condition has not proved a sufficient drawing bu; barley, 171,000 bu. card to coax a ministrant permanently to saying that she preferred the East Side, but would try the West. At the end of her factory, and she returned to the East, from which she could not be weaned.

A manager of one of the oldest intelligence offices in the city and one in the best repute among employers needing high-class servants gave some very sensible reasons, a day or two ago, for the present condition

"It is true," she said, in reply to a quesladies wishing servants. It is useless to enroll another name, as I am not able to running full-handed. All these causes tend reserve requirements under the 25 per cent. to lessen the supply and increase the demand for servants. The general housework girl has almost ceased to exist, but never until this year has it been impossible for to me to-day and told me that she had

Persistent Thirst for Knowledge.

"Henry," said Uncle Amos, from Upcreek, who was visiting his city nephew, "who's the street? Every morning he stands in front of a window an' shaves himself. He's done it now for three days hand-runnin'." "I suppose he has done it every morning for the last ten years, uncle," replied

"Has he lived there all that time?" "Yes, and longer than that, for all I know. I've been here only ten years my-"Who is he?"

"I don't know." "What does he foller?" "I haven't the slightest idea, Uncle." Uncle Amos put on his hat and went out.

In an hour or two he returned. "Henry," he said, "that chap's name is Horton. He runs an insurance office down town. He's wuth about \$27,000, owns that house an' lot, belongs to the Presbyterian Church, has three boys an' one girl, an' he's forty-six years old. I've found out more about him in an hour than you have in ten years. Blamed if I don't believe livin' in the city makes people stupid."

Dry Goods.

FALL RIVER, Nov. 9.-M. C. D. Borden through his local representatives, is offering to sell goods to any one who will buy them at 2 15-16c a yard. All the brokers in this city have been given a chance to purchase, and it is understood the same opportunity has been given printers in New York and Philadelphia. The goods which are now being placed on the market are the contracts which the American Printing Company has made during the last few weeks, and, as many of them were made at from Sc to 3%c, the move is considered an attempt to bear

the market. NEW YORK, Nov. 9 .- The week closes with market. There has been only an indifferent decloths unsettled for regulars, which are offered
